CONFERENCES

Attending conferences on fabric forming is a great way to find out about this unique method of forming, spread the word about it if your're involved with it and meet new people from the world over. See “External Links” below for conference postings.

Past Conferences

Details of some past conferences may be found here:

1st International RILEM Conference - Textile Reinforced Concrete

1st International Conference on Flexible Formwork

Membranes 2011 - V International Conference on Textile Composites and Inflatable Structures

2nd International Conference on Flexible Formwork

Future Conferences

Post information and links to future conferences here.
