ebook help

Description

The **bookcreator** plugin will allow you to create and export selected pages from this wiki to a little book PDF document.

Pages selected for inclusion into your **ebook** PDF document will be stored and their titles shown on the ebook page. Simply select "*Add this page to your book*" in the **Book creator** toolbar at the top of the page. To show or modify the pages selected for your **ebook** select "*Show, modify book*" from the toolbar.

With **Book creator** you can:
* Reset all selection
* Exclude a page from the list
* View the excluded pages and "include" them back
* Create the PDF book of the selected pages
* Create a printable version of selected pages
* Extract only text of selected pages
* Drag and drop to change exporting order of pages
* Set a title for the PDF document
